Welcome to VLAST for the ACA Game Development Program

What is VLAST ?

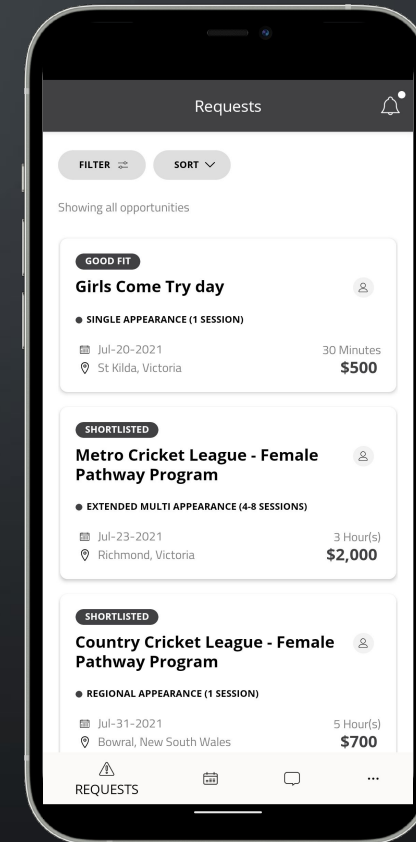

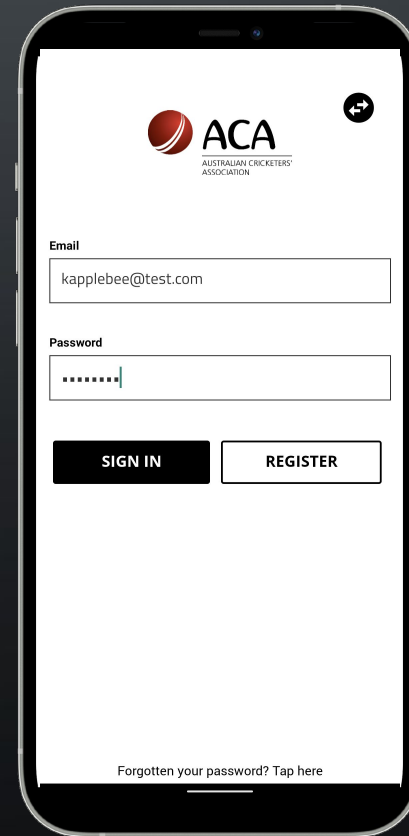

V L A S T
TALENT
ACTIVATION
PLATFORM

PickStar has developed a Player Management Platform (VLAST) to provide the ACA with a streamlined, automated and scalable way to manage 100's of past player appearances requests at once.

Once implemented, Vlast will reduce the administrative time required to manage bookings, reduce human error, and improve the experience and outcomes for Past Players, Administrators & External Stakeholders

How the Exclusive Player App Works

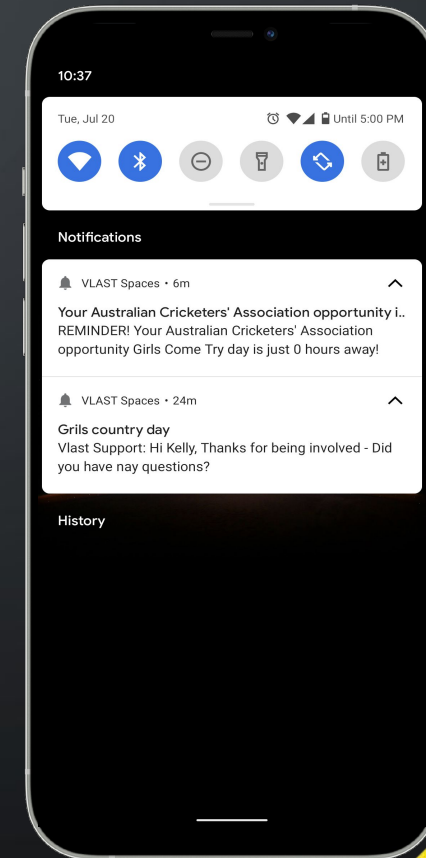

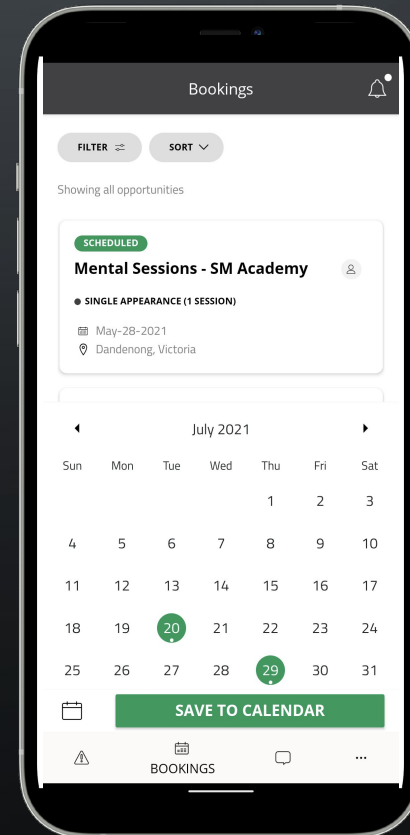

- Your own past player profile with access via both web interface & mobile app.
- Receive, Review and Accept all incoming ACA Game Development Program appearances via push notifications, SMS & Email.

How the Exclusive Player App Works

V L A S T TALENT
ACTIVATION
PLATFORM

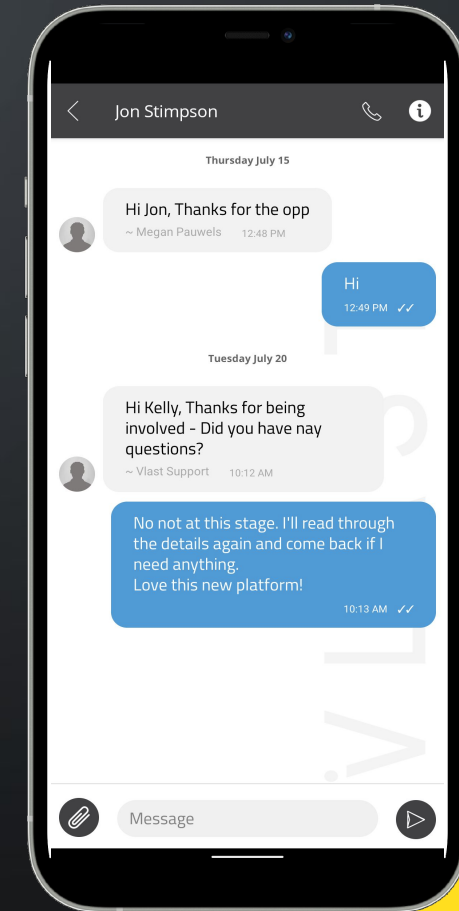

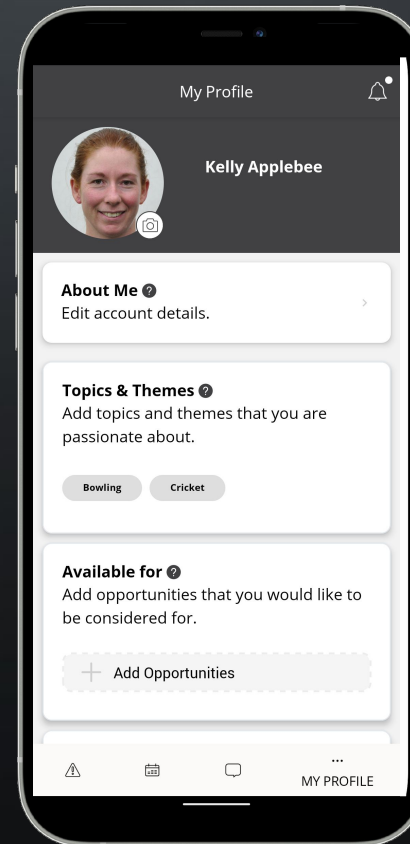

- Sync booked appearances with your own personal calendar to keep you super organised.
- Receive timely automated push notifications and reminders for new appearances, upcoming bookings & new messages.

How the Exclusive Player App Works

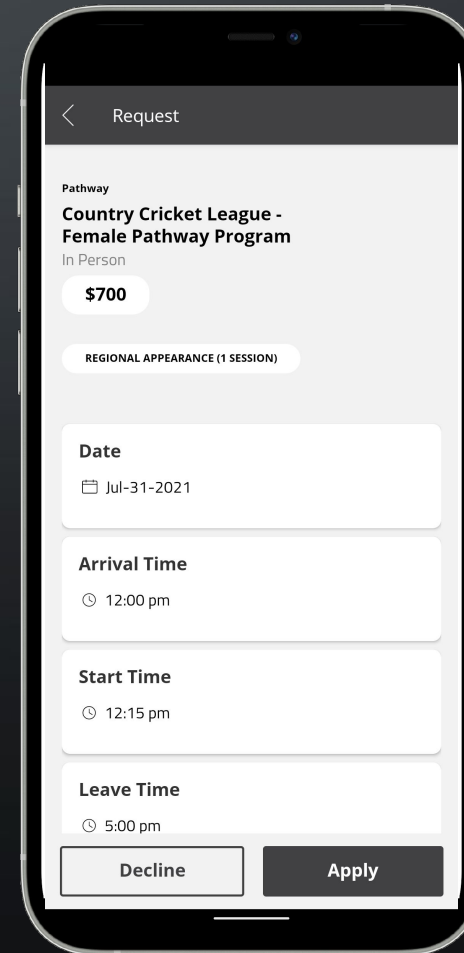

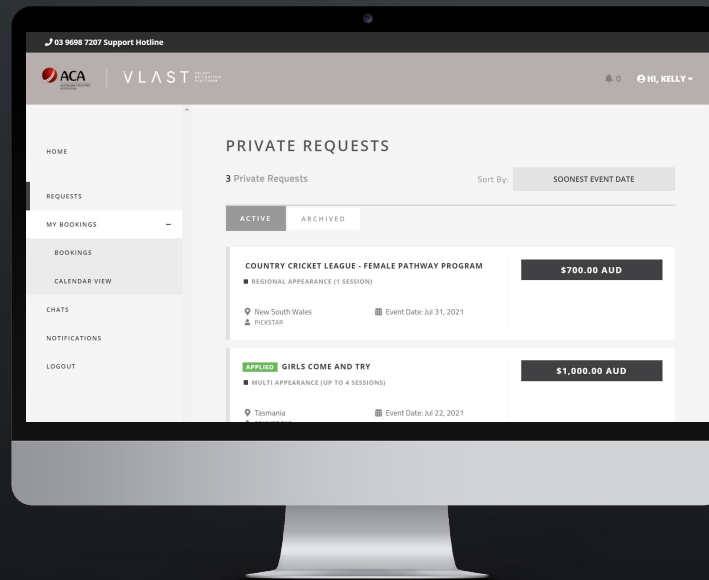

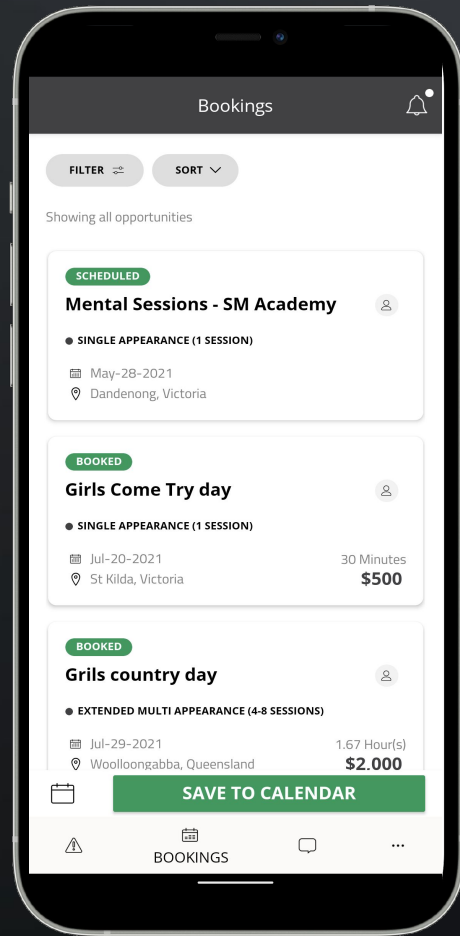

V L A S T
TALENT
ACTIVATION
PLATFORM

- Communicate securely with all ACA admin or staff via the inbuilt messaging chat feature
- Centralise and have access to your own “Coach” data including coaching qualifications, WWCC, payment details & specialist discipline (batter, bowler & keeper)
